

SHIVA KUMAR DEVATHA

Data Analyst | SQL | Power BI | Python | ETL

+91 9908080045 • devathashivakumar@gmail.com • [LinkedIn](#) • Hyderabad, Telangana, 500091 • [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst with 2.5+ years of experience at Tata Consultancy Services, specializing in SQL-driven reporting, data validation, and analytics within the BFSI domain using TCS BaNCS platforms. Delivered 25+ operational and regulatory reports, resolved 50+ production data issues, and maintained 99%+ data accuracy across 50K+ records. Skilled in Power BI, Python, ETL processes, and policy-level financial data analysis. Recognized with three TCS awards for performance, compliance, and project excellence.

EXPERIENCE

Data Analyst | Tata Consultancy Services

Oct 2023 – Present

Hyderabad, Telangana | BFSI domain — policy-level and financial reporting using TCS BaNCS ecosystem

Tools used: SQL, Power BI, Python, Excel, ETL pipelines

- Performed EDA on 50K+ records to identify trends that supported business decision-making and reporting accuracy
- Developed 25+ SQL-based and operational reports, enabling business intelligence and regulatory reporting for stakeholders
- Ensured 99%+ data accuracy through data validation, cleansing, and reconciliation processes
- Optimized 15+ SQL queries, improving query performance by 30% and reducing processing time
- Resolved 50+ production data issues within SLA, ensuring reliable and consistent data reporting
- Designed and executed ETL processes to support data pipelines across multiple source systems
- Built and maintained MIS dashboards and reports using Power BI for KPI tracking and decision-making
- Automated repetitive reporting tasks using Power Query, improving efficiency and reducing manual effort
- Translated business requirements into efficient SQL queries and scalable reporting logic with minimal rework
- Supported BFSI reporting and data operations using TCS BaNCS-based policy administration systems
- Leveraged AI tools (ChatGPT/Copilot) to accelerate SQL query development and improve analysis efficiency

PROJECTS

Customer Shopping Behavior Analysis → <https://github.com/shivakumar1507/customer-shopping-analysis>

Solo end-to-end retail analytics project — data cleaning, feature engineering, analysis, and dashboard design.

- Performed end-to-end analysis on ~5K customer records using Python, SQL, and Power BI
- Cleaned and transformed data, reducing dataset to ~3.9K valid records; engineered features like customer value and repeat purchase indicators
- Built interactive Power BI dashboard with 6+ KPIs including Total Revenue (~\$256K), Avg Order Value (~\$65), and Repeat Customer Rate (~97%)
- Key insight: repeat customers drive majority of revenue; non-discounted orders contribute ~57%, indicating strong pricing power
- Provided actionable insights for customer retention and revenue optimization

Hollywood Movie Analytics Dashboard → <https://drive.google.com/file/view>

Used Excel and Power BI to analyze movie performance metrics and industry trends.

- Designed and developed interactive Power BI dashboards for business insights and KPI tracking
- Cleaned and transformed data by normalizing genres and creating revenue categories
- Developed KPIs including Total Revenue, Avg Revenue, Blockbuster Count, and Hit Ratio
- Derived insights on top genres, seasonal impact, and distributor performance

IPL Analytics Dashboard → <https://github.com/shivakumar1507/IPL-Analytics/tree/main>

Built an interactive Tableau dashboard to analyze IPL team performance, player statistics, and season trends using ball-by-ball match data.

- Designed and developed interactive Tableau dashboards with KPI cards, filters, and analytical visualizations
- Created calculated fields for strike rate, wickets, boundaries, average match score, and phase-wise analysis
- Analyzed team wins, top batters, toss decisions, and season-wise scoring trends using IPL match data
- Used SQL queries for player, team, and venue-level analytics and insight generation
- Published project on GitHub and Tableau Public with interactive dashboard and project documentation

CERTIFICATIONS

Databricks Fundamentals — Databricks Academy

<https://credentials.databricks.com>

Completed foundational training in Databricks Lakehouse Platform, Apache Spark concepts, data engineering workflows, collaborative notebooks, and modern analytics architecture.

Data Analytics Essentials — Cisco Networking Academy

<https://www.credly.com/badges>

Covered the full data analytics process, statistical techniques, and hands-on labs using Excel, SQL, and Tableau. Demonstrated ability to transform raw data into insights and share project portfolios.

Data Science 101 (DS0101EN) — IBM Skills Build

<https://courses.yl-ptech.skillsnetwork.site>

Learned core concepts of data science, data mining, regression, data visualization, structured vs unstructured data, and the data science methodology with practical business use cases.

SKILLS

Languages & Querying: SQL, PL/SQL, Python

BI & Visualization: Power BI, Tableau, DAX, Data Visualization, Data Storytelling, Ad hoc Analysis

Data Tools: Alteryx, Power Query, Pandas, ETL, Pivot Tables, Data Cleaning, Data Modelling, Data Governance

Reporting & Ops: KPI Development, Report Automation, MIS, Data Migration, Stakeholder Reporting

Productivity: Microsoft Excel, Microsoft Suite, GitHub

EDUCATION

B.E. in Computer Science Engineering | **Balaji Institute of Technology & Science**

2019 – 2023

Warangal, Telangana | **CGPA** – 7.0 / 10.0

KEY ACHIEVEMENTS

- **Xcelerate Warrior Award** — TCS recognition for performance and learning excellence
- **Certificate of Appreciation (Mar 2026)** — BFSI PNP HR Team, for timely compliance and support to ADC process aiding FY26 delivery success
- **On The Spot Award (Apr 2026)** — TCS recognition for excellence in project execution and team contribution
