

SHIVA KUMAR DEVATHA

Data Analyst | SQL · Python · Power BI · ETL · Reporting

+91 9908080045 • devathashivakumar@gmail.com • Hyderabad, Telangana • [LinkedIn](#) • [Portfolio](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Data Analytics professional with 3 years of experience in designing reporting solutions, financial analytics, SQL development, Python, and dashboard-driven decision support within the BFSI domain. Experienced in developing analytical reports using SQL, Power BI, Tableau, Excel, and ETL processes to deliver business insights and improve reporting efficiency. Strong expertise in data validation, dashboard optimization, data modeling, and stakeholder reporting. **Recognized with multiple TCS awards for outstanding performance and delivery excellence.** **Databricks Certified Data Analyst Associate and Databricks Certified Data Engineer Professional**, with hands-on experience building interactive Power BI dashboards, ETL pipelines, and analytical solutions using Python.

EXPERIENCE

Data Analyst | Tata Consultancy Services | BFSI (TCS BaNCS) — Health Insurance Client **Oct 2023 – Present**

Business Intelligence & Analytics

- Developed and maintained **25+ monthly MIS and analytical reports** using **SQL, PL/SQL, and Advanced Excel** to support business reporting and financial analysis.
- Designed reusable **PL/SQL stored procedures, SQL Views, and reporting datasets** to improve reporting efficiency and reduce month-end turnaround time.
- Analyzed **50K+ policy and claims records** to identify trends, validate financial data, and generate actionable insights for business stakeholders.
- Optimized **15+ complex SQL queries**, improving reporting performance by **30%** through query tuning and restructuring.
- Collaborated with business stakeholders to gather reporting requirements and translate them into scalable, SQL-driven reporting solutions.

Data Migration & ETL

- Managed end-to-end **ETL and data migration** processes, including data extraction, cleansing, transformation, validation, and loading into production systems.
- Processed **25–30 migration batches per month**, ensuring data integrity, auditability, and compliance with business quality standards.
- Applied data cleansing, validation, and reconciliation rules during migration to maintain production-quality data and prevent downstream reporting issues.

Data Quality & Production Support

- Resolved **50+ production data issues** within a 24-hour SLA through SQL troubleshooting and root cause analysis, ensuring uninterrupted reporting operations.
 - Maintained **99%+ data accuracy** through structured reconciliation, validation, and data quality checks across multiple source systems.
 - Partnered with business and technical teams to develop reusable SQL logic and continuously improve reporting quality, consistency, and operational efficiency.
 - Supported team members by reviewing reporting deliverables, resolving SQL/data issues, and coordinating tasks to ensure timely delivery.
-

PROJECTS

Lending Club Loan Portfolio Analytics Dashboard — Python · SQL · SQLite · Power BI

- Engineered features across **225K+ loan records** using Pandas and NumPy by creating default flags, risk tiers, DTI bands, recovery rates, and employment stability metrics.
- Developed **10+ SQL analytical queries** to evaluate portfolio KPIs, default trends, grade-wise performance, and DTI-based risk segmentation.
- Built a **3-page interactive Power BI dashboard** featuring **15+ KPIs**, drill-down analysis, and data visualizations for portfolio performance monitoring.
- Identified **Grade G loans with a 40.43% default rate compared to 3.36% for Grade A**, highlighting a **12× higher credit risk**.
- GitHub: github.com/shivakumar1507/loan-risk-analysis

Automated Stock Market Analytics Dashboard & ETL Pipeline — Python · SQL · SQLite · Power BI · ETL

- Developed an automated **ETL pipeline** to extract, transform, and load **1,700+ stock records** across **7 BFSI stocks** from NSE and NYSE into a SQLite star schema.
- Engineered **14 financial indicators**, including RSI, Moving Averages, Volatility, Cumulative Returns, and Buy/Sell signals using Python and Pandas.
- Designed a **3-page interactive Power BI dashboard** with **15+ KPIs and SQL-driven analytics** for portfolio monitoring, stock performance analysis, and India vs. USA market comparison.
- Automated daily pipeline execution with scheduling, logging, and audit tracking to enable reliable, hands-free data refresh.
- GitHub: github.com/shivakumar1507/stock-market-etl-analytics-pipeline

SKILLS

Data Analytics	SQL, PL/SQL, Data Analysis, Dashboard Development, Data Visualization, Stakeholder Reporting
Reporting & BI	Power BI, Tableau, Power Query, DAX, Excel (Advanced), MIS Reporting, Google Sheets (Advanced)
Programming	Python, Pandas, NumPy
Data Engineering	ETL, Data Migration, Data Cleaning, Data Modeling, Agile, SDLC
Databases & Platforms	Oracle SQL, SQLite, Databricks SQL, Databricks Lakehouse
Tools & Productivity	GitHub, Microsoft Office Suite
Professional Skills	Communication, Critical Thinking, Problem Solving, Time Management

CERTIFICATIONS

Databricks Certified Data Analyst Associate	<i>Databricks</i>
Databricks Certified Data Engineer Associate	<i>Databricks</i>
Databricks Certified Data Engineer Professional	<i>Databricks</i>
Data Analytics Essentials	<i>Cisco Networking Academy</i>

EDUCATION

B.E. in Computer Science Engineering	<i>2019 – 2023</i>
Balaji Institute of Technology & Science, Warangal, Telangana	

AWARDS & RECOGNITION

- **Xcelerate Warrior Award** — TCS recognition for performance and learning excellence.
- **Certificate of Appreciation (Mar 2026)** — BFSI PNP HR Team, for timely compliance support to ADC process, aiding FY26 delivery success.
- **On The Spot Award (Apr 2026)** — TCS recognition for excellence in project execution and team contribution.
- **Star of the Month Award (Jul 2026)** — TCS recognition for outstanding performance, ownership, and consistent contribution to BFSI project delivery.
